Welcome to the start of your high school years as a student of the Chambersburg Area School District. And as a partner in your success we offer **FOUR PATHS** to graduation.

**Chambersburg Area Senior High School**

This is the most familiar of our programs and could be right for you. To get you started, the Freshman Academy links you with an upper-classman mentor to help with your transition to high school. Other program features include:

- 100-plus electives to explore subjects of possible interest
- Entrepreneurial opportunities through student enterprises like the student store, student bank, and coffee cart
- Student engagement through school spirit initiatives
- Access to college information, classes, and Advance Placement courses including on-site presence of Harrisburg Community College and Penn State Mont Alto
- College counselor, on-site, to assist in the college selection process
- Diverse educational experience

**Franklin Virtual Academy**

If you are considering cyber-school, don't look any further. Our Franklin Virtual Academy allows for personalized instruction with 24/7-accessibility. Our program features multi-media rich, interactive courses along with features like:

- Self-paced classes
- Access to student activities
- Opportunity to participate in in-school classes
- Taught by PA-certified teachers
- District diploma, unlike other on-line programs
- FREE to CASD students

**Chambersburg Area Career Magnet School**

If you have an interest in science, technology, engineering, and/or mathematics (STEM), take a closer look at our Career Magnet option. Here you will find a mixture of on-line and traditional classroom presentations that are more career-focused and emphasize STEM through technology-rich instruction. Other features include:

- Every student receives an iPad® for instructional use
- Flexible scheduling
- Individualized instruction and smaller school atmosphere
- Collaborative environment with project-based learning
- Electives and Advance Placement options on-line
- Possible early graduation through block scheduling
- Unique learning opportunities through Business Advisory Board partnerships

**Franklin County Career and Technology Center**

If something more hands-on appeals to you, look no further than the program we offer through the Franklin County Career and Technology Center. This program is based on a number of project-based learning experiences offered in a variety of career and technical fields. The program features:

- Capstone Cooperative Education options for seniors that often lead to full-time employment after graduation
- Industry-based learning opportunities that can lead to certification
- Potential to earn college credits
- Variety of student-led organizations related to program offerings
- Opportunity for high-skill, high-wage occupations
- Option to explore careers by attending for just one year

For more information on any of these options, please contact your son or daughter’s guidance counselor.
